

## we inspire stunning outdoor spaces through the benefits of shade

Since 1991, USA SHADE has been the pioneer, innovator and proven industry leader in fabric structure design and technology. We design and build with people first in mind and are committed to cutting-edge innovation and excellence as a groundbreaking firm that consistently outperforms our competitors. As a vertically integrated business, we are a single source for shade and fabric structure solutions, providing our clients with comprehensive resources, lasting partnerships and the best-trained, most-experienced, well-equipped professionals in the industry.

## our guarantees

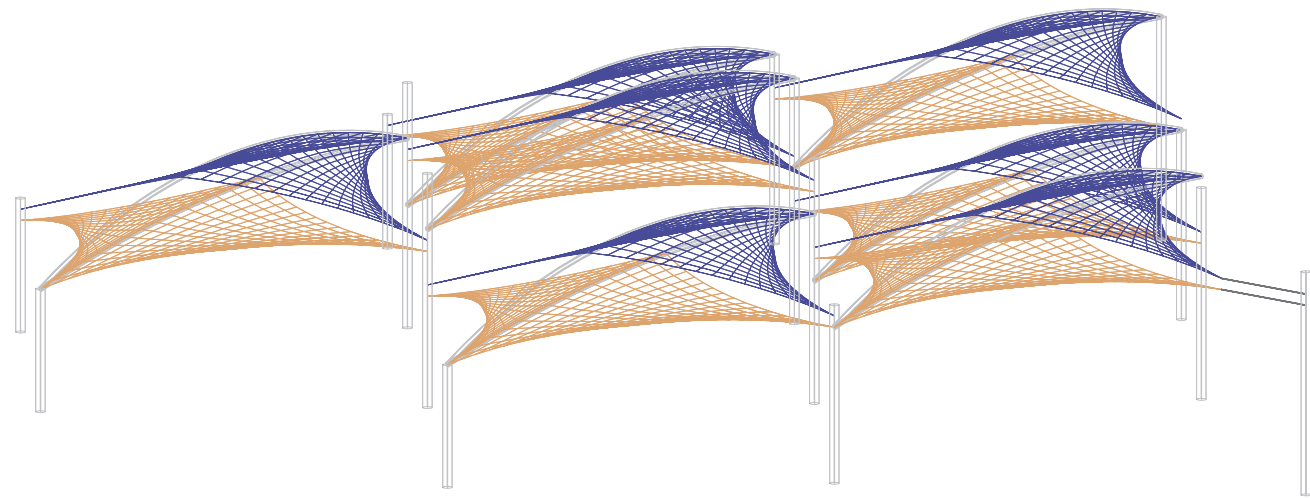

Fabrics can block up to 96% of the sun's harmful rays.

Fabrics are lock-stitched which creates a strong seam that will not fray or unravel.

Colourshade® FR (Fire Rated), Shadesure® and Extreme 32 fabrics carry a 10-year limited manufacturer's warranty from the date of installation against failure from significant fading, deterioration, breakdown, mildew, outdoor heat, cold, or discoloration.

Virtually no maintenance.

Fabrics can be easily removed for winter storage or extreme weather conditions.

## design + build process

Beginning at the initial design development stages, we collaborate with design professionals to provide continuity of the project and ensure its success. We partner with our clients to offer world-class solutions, from conceptual site impacts all the way through to assistance with construction documents. Our comprehensive resources allow us to deliver a level of service that builds lasting partnerships and stunning outdoor spaces.
